

# NETGEAR AXM762 Datasheet

NETGEAR AXM762 SFP+ Transceiver, 10GBase-LR for single mode 9/125  $\mu$ m fiber

AXM762

NETGEAR AXM762 SFP+ Transceiver, 10GBase-LR for single mode 9/125  $\mu$ m fiber

NETGEAR ProSafe 10 Gigabit SFP+ transceivers fit into M5300, M7100 and M7300 series standard SFP+ interfaces, providing hot-swappable installation and removal. Select Smart switches and Plus switches will also connect 10 Gigabit SFP+ transceivers.

## Features

- Adds 10Gigabit Ethernet "long-reach" LC fiber connectivity to the standard SFP+ interfaces
- Fits into the two built-in 10GE SFP+ interfaces of GSM7328S-200 and GSM7352S-200
- Fits into the 10GE SFP+ interface of the SFP+ Adapter module AX743
- Fits into standard 10Gigabit SFP+ interfaces
- LC connector
- Drives 10Gigabit Ethernet up to 10km distances with 9/125  $\mu$ m SMF single mode fiber cables
- Drives 10Gigabit Ethernet up to 300m distances with 50/125  $\mu$ m laser-optimized OM3 multimode fiber cables
- Drives 10Gigabit Ethernet up to 33m distances with 62.5/125  $\mu$ m OM1 multimode fiber cables
- Provides hot-swappable installation or removal
- 10GBaseLR fiber technology is the same for XFP and SFP+ : one Switch equipped with XFP 10GBase-LR LC connectivity can uplink to another Switch equipped with SFP+ 10GBase-LR LC connectivity using the same fiber
