

Cablexa CAB-8088-QSFP-0AM Datasheet

External Mini SAS SFF-8808 to QSFP+ SFF-8436 Cable, 0.5 meter

CAB-8088-QSFP-0AM

External Mini SAS SFF-8808 to QSFP+ SFF-8436 Cable, 0.5 meter

This QSFP to Mini SAS DDR cables feature a QSFP+ Zinc Die Cast SFF-8436 connector on one end and an External Mini SAS SFF-8088 with a universal keyed connector on the other end. This cable is built using high speed 24 and 28 AWG wire. Applications include DDR InfiniBand, Fibre Channel, and Serial Attached SCSI. We offer standard lengths of 0.5 to 7 meters. Custom lengths are available upon request.

Features

- QSFP+ (SFF-8436) to MIniSAS (SFF-8088) Connector
- Copper Passive
- 0.5~7 meters
- AWG28/AWG30
- Impedance = 100 Ohms
- High performance 8 pair wire construction
- Low power consumption
- Excellent EMI performance
- High reliability
- Wide operating temperature range:
 - Standard: 0°C to +70°C
 - Industrial: -40°C to +85°C

Applications

- SAS/Mini-SAS
