

Cablexa CAB-QSFP-CX4L-0AM Datasheet

QSFP+ SFF-8436 to CX4 SFF-8470 Passive Copper Direct Attach Cable, 0.5 meter

CAB-QSFP-CX4L-0AM

QSFP+ SFF-8436 to CX4 SFF-8470 Passive Copper Direct Attach Cable, 0.5 meter

This QSFP to Cx4 cables have a QSFP connector and a CX4 InfiniBand connector at the two sides of the cable respectively. The Quad Small Form-Factor Pluggable Plus (QSFP) interface provides a low-profile, high-bandwidth, low power-consumption interconnect solution for HPC computer network and large data centers. They are commonly used for DDR/ SDR InfiniBand applications.

Features

- QSFP to CX4(SFF-8470) Connector
- Copper Passive
- Low power consumption
- Excellent EMI performance
- High reliability
- Zinc die-cast QSFP connectors with pull-release latch
- SFF-8470 connectors with side squeeze latch
- High performance 8 pair wire construction
- Low cross-talk and pair-to-pair skew
- Fully compliant to QSFP MSA
- RoHS Compliant
- Wide operating temperature range:
- Standard: 0°C to +70°C

- Industrial: -40°C to +85°C

Applications

- 10-Gigabit Ethernet
- QSFP, 10GBASE-CX4 and SDR/DDR InfiniBand
