Cisco DS-SFP-GE-T 1-Gbps Ethernet SFP

DS-SFP-GE-T

Cisco DS-SFP-GE-T Copper Gigabit Ethernet SFP Modules

For even more cabling flexibility, the MDS 9000 Family offers Cisco Copper Gigabit Ethernet SFP modules. Based on the 1000BASE-T standard, Copper Gigabit Ethernet SFP modules provide cost-effective connectivity for data center applications. Copper Gigabit Ethernet SFP modules (part number DS-SFP-GE-T) allow the use of standard Category 5 Unshielded Twisted Pair (UTP) cabling for Ethernet connectivity.

Specifications

- Part Number: DS-SFP-GE-T
- Description: Cisco 1-Gbps Ethernet SFP
- Connector: RJ-45 connector
- Cable Type: Category 5 UTP
- Cable Distance: 100m (328 ft)
- Dimensions (H x W x D): 13.75 x 13.75 x 67.8 mm
- Operating Temperature Range: 0°C ~ 40°C
- Storage Temperature Range: -40°C ~ 85°C
