

HPE J8177C Datasheet

HPE J8177C X121 1G SFP RJ45 T Transceiver

J8177C

HPE J8177C X121 1G SFP RJ45 T Transceiver

This HPE ProCurve J8177C SFP transceiver supports up to 100m link lengths over a copper connection via a RJ-45 connector. Featuring low power consumption, the hot swappable 1G SFP transceiver is ideal for enterprise networking for LAN applications and different other networking places using copper connections.

Specifications

- Brand: HPE
- Part Number: J8177C
- Form Factor: SFP
- Max. Data Rate: 1000Mbps
- Media: Cat 6/Cat 6a
- Max. Cable Distance: 100m
- Connector: RJ-45
- Rx LOS: NO
- Power Consumption: $\leq 1W$
- DDM/DOM: Not Supported
- Commercial Temperature Range: 0 to 70°C (32 to 158°F)
