Mellanox 100Gb/s QSFP28 Direct Attach Copper Cable

Mellanox MCP1600-E0xxEyy DAC cables are high speed, cost-effective alternatives to fiber optics in InfiniBand 100Gb/s EDR applications.

Mellanox QSFP28 passive copper cables(1) contain four high-speed copper pairs, each operating at data rates of up to 25Gb/s. Each QSFP28 port comprises an EEPROM providing product information, which can be read by the host system.

Mellanox's unique quality passive copper cable solutions provide power-efficient connectivity for short distance interconnects. It enables higher port bandwidth, density and configurability at a low cost and reduced power requirement in the data centers.

Rigorous cable production testing ensures best out-of-the-box installation experience, performance and durability.
